On a table, in a corner on the floor, beside the bed, there is always a place for these beautiful table lamps. You can easily move these lights around!

Originally, this type of pottery was made by woman only, in the foothills of the Atlas mountains. After drying, the pots are covered with a layer of thin clay. The lampshade is made from a rough linen for a pure and sturdy style.

The hand painted motifs in black are abstract and ancient, often symbolising fertility and protection.

This unique collection looks excellent in a very clean modern setting but is also stunning in a boho-inspired interior.
