Number of light sources	1
Old Zenza productname	Bloom Nickel XL
Pattern	Nickel
Size	XL
Suitable for LED	Ja
Wire / Cord	120 cm lange, transparante kabel met bijpassende kabel en plafondkap

Pluspunten

- + The base material is brass and will never rust, the nickel layer does not require maintenance
- + The nickel layer gives a fresh and light appearance
- + The silver lamps fit into any interior and are timeless.

Minpunten

- The appearance of nickel is colder than that of silver-plated lamps

Magic happens when you turn on the light.

A variety of contemporary designs will help you choose the perfect pendant for any space in your home.

If you want to see how our lamps are made and how much hand work is involved, you can have a look at this movie. It was the incredible craftsmanship that astonished us when we started working with the artisans in Egypt.

Handwork is disappearing in the fast world of today and we wanted to keep using the skills of the copper smiths. Our own Zenza factory in Cairo provides a safe work space where we can maintain our high quality standards.

Through micro-finance projects we also have helped several craftsmen to set up their own work shop, so they could grow along with Zenza. Working in a sustainable and ethical way with the focus on authenticity is what truly makes a difference in the end.

- The appearance of nickel is colder than that of silver-plated lamps
